In reply to Office Action of 31 October 2007

Attorney Docket No. 83042

performing an opportunity analysis includes the steps
of:

grading strengths and weaknesses of the identified
potential business opportunity, said grading occurring
in areas of the market, economics, competitive
advantage, the team, and potential flaws, each area
including plural criteria and high/low attractive
assessments for each;

entering project identifying information into a computer
for creating a master form;

automatically summarizing graded areas on the master form;

archiving opportunities having an overall low attractive
summarized score; and

forwarding identified potential business opportunities
having an overall high attractive summarized score as
valid business opportunities;

committing resources to said valid business opportunities;

In reply to Office Action of 31 October 2007

Attorney Docket No. 83042

developing a business proposal for said valid business
opportunities;

submitting said developed business proposal to a potential
buyer of said valid business opportunity;

determining if submission of said developed business
proposal is a success; and

executing said business opportunity upon determining that
the submission is a success.

4. (original): The process according to claim 3 further comprising the step of representing each area by a separate electronic worksheet wherein the step of grading includes assigning a numeric value to each criteria according to the project parameters, computing a score for that worksheet and transferring the computed score to the master form.

5. (original): The process according to claim 4 wherein market criteria include customers, user benefits, value added, product life, timing, market structure, funding potential, and potential market share.

Application Serial No. 10/006,733
In reply to Office Action of 31 October 2007

Attorney Docket No. 83042

6. (original): The process according to claim 5 wherein economic criteria include time to break even, return on investment potential, capital requirements, impact on staffing, room for error, and funding structure.

7. (original): The process according to claim 5 wherein competitive advantage criteria include fixed and variable costs; control over costs; prices and distribution; barriers to entry by proprietary protection, lead time, legal and contractual issues, availability of contacts and networks, availability of key people, specialized criteria for an applicable industry; and a level of technology and concept.

8. (original): The process according to claim 5 wherein team criteria include having an entrepreneurial team, any industry or technical experience, integrity, intellectual honesty, and stress tolerance.

9. (original): The process according to claim 5 wherein potential flaw criteria include real customer, under promise - over deliver, a right corporate culture, a motivated team with correct skills, a correct market, confidence, engineering of product, stress tested properly, good subcontracting suppliers, trying to do too much, an experienced team, right location,
